Issued : May 13, 2008
Inventor : Sackellares, et al.
Title : OPTIMIZATION OF MULTI-DIMENSIONAL
TIME SERIES PROCESSING FOR SEIZURE
WARNING AND PREDICTION

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction, for the above-identified patent under the provision of Rule 1.322 or 1.323.

Respecting the alleged error, entry of the request for Certificate of Correction filed June 18, 2008 is denied. The request to correct inventorship under 37 CFR 1.48(a) filed 23 April 2008 is being treated as a request to correct inventorship under 37 CFR 1.324 since the paper was addressed after the patent issued. The request is deficient in that it does not include a statement from the current named inventors either agreeing to the change of inventorship or stating that they haave no disagreement in regard to the requested change as required by 37 CFR 1.324 (b)(2). Therefore, no correction (s) is in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323.

In view of the foregoing your request is hereby denied.

Further correspondence concerning this matter should be filed and directed to Decisions and Certificates of Correction Branch. Any response must be filed within a four week period.
